

Bleed

Trim Line

Safe Zone

No text or images you would not like cut should extend past the yellow safety line area. Background should extend out to the edge of the green area.

Delete template before submitting your files.

**Bleed:** Extra space outside of the final size for trimming and shifting purposes.

**Trim line:** where the job will actually be cut +/- to final size

**Safe zone:** all images or text should stay inside this area unless being cut is part of the design
